*In the event of a complaint relating to any service or installation in a property gas-elec must be given the opportunity to address the issue by re-visiting the property to resolve any alleged complaint. gas-elec cannot be held responsible if the opportunity to fully address the matter is not afforded to us. In the event of another company/contractor being called to the property to investigate or attempt to rectify an alleged complaint in preference to gas-elec the company will accept no liability. A detailed internal inspection of the flue integrity, construction and lining has not been carried out. I confirm that the situation(s) recorded above, has been identified and brought to the attention of the Responsible Person in accordance with the GSIUR, and Gas Industry Unsafe Situations Procedure. This report has been completed and issued by Gas-elec Safety (UK) Ltd. This is an MOT style Gas Safety Record, please refer to the access date and next expiry date at the top of this page. This means we can carry out the inspection up to two months before the due date. The Record will still retain the existing expiry date. This report has been produced in accordance with the Gas-Elec Group working method statement which covers COVID -19 virus procedures. A copy of this working method statement can be found on: [www.gas-elec.co.uk/cvd19](http://www.gas-elec.co.uk/cvd19).*

This Safety Record Issued By

Name William Jones

(Please refer to 'General Comments' page for comments made by the engineer regarding the installation)

## General comments:

Gas installation pipework not accessible for inspection. Visually checked as far as practically possible.
